

# Test use of rgl in PDF & HTML

PDF: Will this generate a static plot in Figure 1?

```
x <- rnorm(100)
y <- rnorm(100)
z <- rnorm(100)
plot3d(x, y, z, col = "red", type = "s", size = 3)
outfile <- here::here("images", "rgl-test.png")
fn <- snapshot3d(filename = outfile, width=800, height = 800)
```

file:///C:/Users/friendly/AppData/Local/Temp/Rtmpiov8fE/fileb5f02d02113b.html screenshot comp

```
knitr::include_graphics(outfile)
```

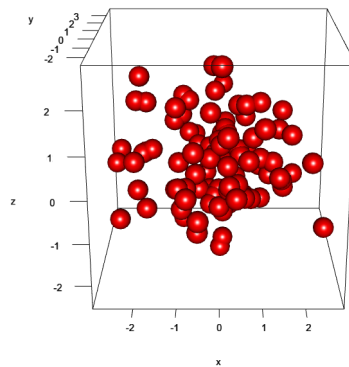

Figure 1: Random points in 3D
