

Sepal.Length

A PCA plot showing the first two principal components of morphological characters for three species: *setosa*, *versicolor*, and *virginica*. The x-axis is labeled 'Species' and the y-axis is labeled 'Error'. The data points are clustered by species, with *setosa* at the top, *versicolor* in the middle, and *virginica* at the bottom. A dashed red ellipse encloses the *versicolor* and *virginica* clusters, while the *setosa* cluster is outside this ellipse.

Sepal.Width

A diagram illustrating the relationship between species and error. A blue line, labeled "Species" at the bottom and "Error" at the top, passes through a pink oval. Inside the oval, the text "virginica versicolor" is positioned above a "+" sign, and "setosa" is positioned below a "-" sign.
